### Why It's Important

Spina Bifida is a birth defect that occurs when the lower end of the spinal cord does not form properly in the developing baby. Paralysis, loss of bowel and bladder control, hydrocephalus, and learning disabilities are among the issues associated with Spina Bifida.

### Did You Know

Spina Bifida affects 2 in every 1,000 births in Texas.

### How You Make a Difference

Funds raised at this event will help to provide the majority of our annual budget for our member services

### How We Serve

- We provide support, information and fellowship to the families affected by Spina Bifida in Central & South Texas.
- We award area students affected by Spina Bifida with college scholarships.
- We grant quality of life sponsorships for camp, sports programs, dance, and music lessons.
- We educate parents and caregivers through our Spina Bifida Conference.
- We promote prevention by educating women regarding the importance of consuming 400mcg of folic acid daily to reduce their risk of having a child with a neural tube defect like Spina Bifida by up to 70%.
